Sunrise Ins Ltd is a prominent exporter of high-quality green coffee beans from Vietnam, renowned for its robust and aromatic Arabica and Robusta varieties. We leverage strong relationships with **leading coffee processors** across the country, ensuring access to the finest beans sourced from **diverse growing regions**. Our expertise lies in understanding the specific needs of global markets, enabling us to cater to the unique preferences of discerning coffee roasters and importers worldwide.

Vietnam has emerged as a significant player in **the global coffee market**, with key export destinations including the United States, Germany, Japan, and South Korea. Sunrise Ins Ltd plays a crucial role in connecting these markets with the exceptional quality of Vietnamese coffee beans. We prioritize **sustainable sourcing practices** and work closely with our partners to ensure the highest standards of quality and traceability throughout the entire supply chain.

We use the technology of **vacuumation** for the entire shipping container to ensure the optimal preservation of our coffee beans during transportation. This process involves **removing the air** from the container, creating a vacuum environment that protects the beans from various external factors.

One of the primary reasons for vacuumation is to **mitigate the risk of condensation**. When cargo travels from regions with significant temperature differences, such as from hot to cold climates or vice versa, moisture can accumulate within the container. This condensation can lead to **increased humidity levels**, which can damage the coffee beans by promoting mold growth and affecting their flavor profile. Vacuumation **effectively eliminates this risk** by preventing the formation of condensation, ensuring that the beans reach their destination in pristine condition.

RETAIL

COFFEE TOUR

Sunrise Ins Ltd offers a unique and enriching experience for **our clients visiting Vietnam** for inspections or loading. We organize engaging **coffee tours** that combine insightful visits to local coffee farms with exciting coffee tastings. These tours provide valuable insights into the journey of Vietnamese coffee, **from bean to cup**. Clients have the opportunity to witness firsthand the cultivation methods, processing techniques, and the dedication of local farmers.

Furthermore, for those seeking a more immersive experience, we can arrange **private tours** to the picturesque **Dalat Highlands**. Nestled amidst breathtaking natural beauty, Dalat offers a captivating blend of coffee culture and stunning landscapes. During these tours, clients can visit **thriving coffee farms**, interact with the passionate farmers, and indulge in a delightful **coffee tasting experience**. The serene beauty of the Dalat Highlands coupled with the rich coffee heritage creates an unforgettable journey for our esteemed clients.
